

January 21, 1937

Dear Council Members,

As you know, in 1936 we purchased an expensive Bingo Machine and it has proved very functional. Our Bingo luncheons have been good but not as profitable as our equipment and luncheon normally deserve.

We give tangible prizes which are not particularly appealing. Our donations are contributed by the same few that prepare, serve and clean up after the luncheon.

It has been suggested that in lieu of material prizes, that we give money in nominal amounts. We would still have prizes for special games, tumbola table and would have a cake table.

Hopefully, the Council will understand our predicament and approve our request.

Yours respectfully,
