Nov. 12, 1981

Dear Mr. Ryan

I shall not attempt to tell you how to settle any matters by the law. That is your realm of occupation. I'm sure that you have gave me the best advice. That is possible concerning this case, of compounded falsehoods. I shall sign this letter giving you my consent to settle this case between Bay Welding Service, Inc. & The United Evangelical Church. With only one stipulation. That all concerned parties of the Church council have a copie or have an opportunity to read this one. Before they enter into a final agreement. Providing they are of good christian faith, they should know that God wants to pay all our debts. Even if they feel it is wrong for only God has the right to judge or punish. When they do what is right God shall heap seals on the others head. In this case the quotation others would be myself. I have no fear of this happening because I have not done wrong. I have submitted to you a just bill for collection since the people of the church would not acknowledge my requests for payment. I have stated my side of the case both verbal and with written proof. I knew that if these people are what they claim to be before God. They will pay their debt in full. I now leave the paper work to you, and a just settlement of their debt to Bay Welding Service, Inc. to God. I place my signature at the lower right half of this letter to authorize you settle this matter according to mans law. I leave the outcome of it to God.

Reference I Corinthians 6

Sincerely, yours

Samuel S. White Jr.
