Dear Mr. Price:

The Parking Authority of Baltimore City (PABC) conducted an on-site investigation into your request for the installation of angle parking in the 900 block of South East Avenue. Our investigation in conjunction with the Office of Transportation's Engineering Division determined that this modification would have a negative impact to the parking program and may create a safety issue. Therefore, we are unable to entertain your request.

If you need any further information, please contact our office on 410-396-6975, or by e-mail at [ParkingAuthority@baltimorecity.gov](mailto:ParkingAuthority@baltimorecity.gov).

Sincerely,

John K. Brewer  
Vice President of Operations
