Mr. G. P. Mueller
Baltimore, Md.

Dear Mr. Mueller:

The Chesapeake Bay and the Wilson Line steamer STATE OF DELAWARE offers you the ideal summer excursion. It is not a bit too early to begin making plans for your summer activities and we suggest that you select your date early so that you may be assured the date your organization requests for their excursion.

Quite a number of our old friends have already selected dates for their annual excursion either to Seaside Park or on the Moonlight Cruise. These organizations realize the importance of acting early on their summer excursion so that they have ample time to plan their trip so as to assure a success both from a social and profitable standpoint.

If you have not already held an excursion on the STATE OF DELAWARE a pleasant surprise is in store for your organization's members and their friends, also, the profits that may be derived from a well-conducted excursion will surprise you.

Let us have one of our representatives call on your organization to discuss our rates of discount, charter prices, etc. We will also be glad to assist in the planning of your excursion. Just return the enclosed reply card and we shall gladly call on you without obligation.

Yours very truly,

Frank Weber
District Representative.
