

The quarterly congregational meeting of the United Evangelical Church was held on March 14, 1950 with Mr. Mueller, President presiding. The meeting was opened with prayer by Rev. Lehmann. Minutes of the last congregational and board meeting were read and approved. The quarterly Financial Report was read and approved.

COMMUNICATIONS - None.

OLD BUSINESS - The cards which were printed and given out at the Christmas Eve Service to be marked in regards to the change in the Lenten Services from Friday to Wednesday nights showed that the majority of the congregation preferred to have the services continued on Friday nights.

With the ever declining attendance in the Sunday Evening Services and with the customary discontinuing of these services after Easter, plans are being made to inaugurate an early Sunday morning service in addition to the present morning service. A motion was made by Mr. Jorio, seconded by Mr. Laukeman that we hold our first early Sunday service the first Sunday after Easter. It has been suggested that we open this service at 8:15, if possible, but that the Pastor use his own discretion in deciding this matter.

NEW BUSINESS - It has been brought to our attention that several of the older members of the congregation have some difficulty in hearing the sermon. It has been suggested that we look into the possibility of perhaps having an amplifier installed under the Balcony of the Church.

Mr. James, our present Sexton, has reported that he may be forced to leave his duties due to the acceptance of another position. Should anyone know of a person who may in the future be interested, contact Mr. Mueller.

Meeting closed with prayer.
